#### **Comments/Documents Provided by EPA**

- On August 6, 2015, EPA notified the LWG that, contrary to previous statements, EPA would not be able to share cost information with the LWG before the Portland Harbor executives meeting or discuss the information during the executives meeting. EPA notified the LWG that it was revising the date for providing EPA's FS draft Section 4 to no later than Friday, August 14, 2015.
- On August 6, 2015, EPA responded to a technical question raised by the LWG during the July 29, 2015 FS roll out meeting regarding the draft FS Section 3 alternatives. EPA has identified an error in the coding that will affect the technology assignments, which will also change the volumes dredged and areas to be capped. Corrected information will be provided after the draft FS Section 4 is distributed.
- On August 12, 2015, EPA informed the LWG that EPA's draft FS Section 4 would be provided by August 18, 2015.
- On August 14, 2015, EPA provided the LWG revised and additional text for the draft FS Section 3 regarding dredge production rates.

- On August 19, 2015, EPA confirmed that the LWG has 21 calendar days to provide EPA with its list of significant FS issues; therefore, the list is due to EPA by September 8, 2015.
- On August 28, 2015, the EPA Remedial Project Manager informed the LWG that she is reviewing the electronic copy of the Draft Final Remedial Investigation (RI).
- On August 31, 2015, EPA provided the LWG additional information in response to the LWG's questions about ex situ treatment in EPA's draft FS.

#### **2. PROBLEMS ENCOUNTERED, ANTICIPATED DELAYS, AND SOLUTIONS**

- None.

#### **3. RESULTS OF SAMPLING, TESTS, AND OTHER DATA RECEIVED**

- None.

#### **4. SCHEDULE FOR THE NEXT FOUR MONTHS**

The LWG project team will continue to coordinate with the EPA Remedial Project Managers to finalize the RI report and assist EPA as requested in the development of EPA's Draft Final FS, per the process and schedule presented in Jim Woolford's April 7, 2015 memorandum and a negotiated revised schedule based on the information provided by Cami Grandinetti on June 30, 2015. In addition, EPA modified its

delivery date of the draft FS Section 4 a few times during August 2015, which resulted in subsequent negotiated modifications to the project schedule.

Submittal dates for pending documents currently under preparation by the LWG and scheduled for submittal in upcoming months are listed in Table 1: Status of Active LWG Deliverables—Portland Harbor RI/FS. This table includes pending and recently submitted deliverables for which EPA comments or approvals are required. Table 2: Status of LWG Deliverables—Portland Harbor RI/FS reflects the more complete list of LWG submittals and is equivalent to the former Table 1 provided in previous progress reports.

## **5. DOCUMENTS AND ISSUES AWAITING EPA RESPONSE**

EPA comments or approvals have not been received on a number of documents that have been submitted to EPA as required by the ASOC; these submittals are listed in Tables 1 and 2. The LWG requests that EPA provide document approvals for these submittals to verify that the terms of the ASOC are being met and issues are resolved to maintain progress on the RI/FS. Also, the LWG believes that many of the documents listed as future submittals in Table 2 are no longer needed (see Status/Comments column) and requests that EPA review the list and confirm that these documents are, indeed, not needed.

If you have any questions, please give me a call at (503) 972-5014.

Sincerely,

Jennifer Woronets  
LWG Administrative Project Coordinator
